

The foundation
of kidney care.

Indirect Costs of Research Policy

It is the policy of The Kidney Foundation of Canada not to fund indirect costs of research. The definition of indirect costs of research for the purposes of this policy is costs that cannot be directly associated with a particular research program or operating grant, including but not limited to costs associated with the operation and maintenance of facilities (from laboratories to libraries); the management of the research process (from grant management to commercialization); and regulation and safety compliance (including human ethics, animal care and environmental assessment).

Date Approved: August 13, 2009 by the National Executive Committee
